1. Executive Summary

This survey is performed by WiFi Survey Company for Beachwood Mall Properties. The report is generated by John Doe of WiFi Survey Company at 02/02/2017 16:39.

This survey includes 2 floors:

Floor Name	Survey Points	SSIDs	APs	APs of Various SSIDs	Dimension (ftx ft)
Beachwood_L1	171	154	246	861	722 x 698
Beachwood_L2	109	145	226	731	722 x 698

Summary of survey results in percentage of surveyed points that have passed various performance requirements:

Excellent (90%-100%) Good (80%-89%) Fair (60%-79%) Poor (<60%)

Floor	Points	RSSI (dBm)	QoS Score	Co-Channel APs	Throughput/Client(Mbps)
Beachwood_L1	170	100%	82%	92%	92%
Beachwood_L2	109	100%	76%	86%	86%

The WiFi performance is checked against the following configured performance requirements

Requirements	Criteria
RSSI greater than (dBm)	-75.0
QoS Score greater than	30%
Co-Channel APs less than	24
Number of supported client devices	10
Per client throughput (Mbps) greater than	0.11
Support voice clients	Yes
Support video clients	Yes

The report is generated with the following filters:

Filters	Selected
Band	2.4/5 GHz
AP Types	Both Managed and Unmanaged/Rogue APs
Hide All APs	No
Selected SSID	All
Selected Channels	All

Following chapters of the rest of the report are organized as follows. Each chapter covers the site survey results for a floor. It starts with a section of Overall Survey Results followed with sections of details for survey points and detected wireless networks. The sections of Overall Survey Results contain snapshots and tables summarizing the findings of the site survey, and most importantly, the assessment of Wi-Fi performance against the user configured performance criteria. The sections of Details of Survey Results show the details of each survey point, including notes, attachments, and charts of continuous site survey if any. In the sections of Details of Wi-Fi networks for each floor, there are tables for the detailed information of identified Wi-Fi networks and the APs.

2. Site Survey Results for Beachwood_L1

2.1 Introduction

This chapter covers the survey results for Beachwood_L1.

Survey Points Types	Number of the Survey Points
Survey Points	171
Continuous Survey (CSS) Points	1
Active Survey Results	0

3. Site Survey Results for Beachwood_L2

3.1 Introduction

This chapter covers the survey results for Beachwood_L2.

Survey Points Types	Number of the Survey Points
Survey Points	109
Continuous Survey (CSS) Points	0
Active Survey Results	0

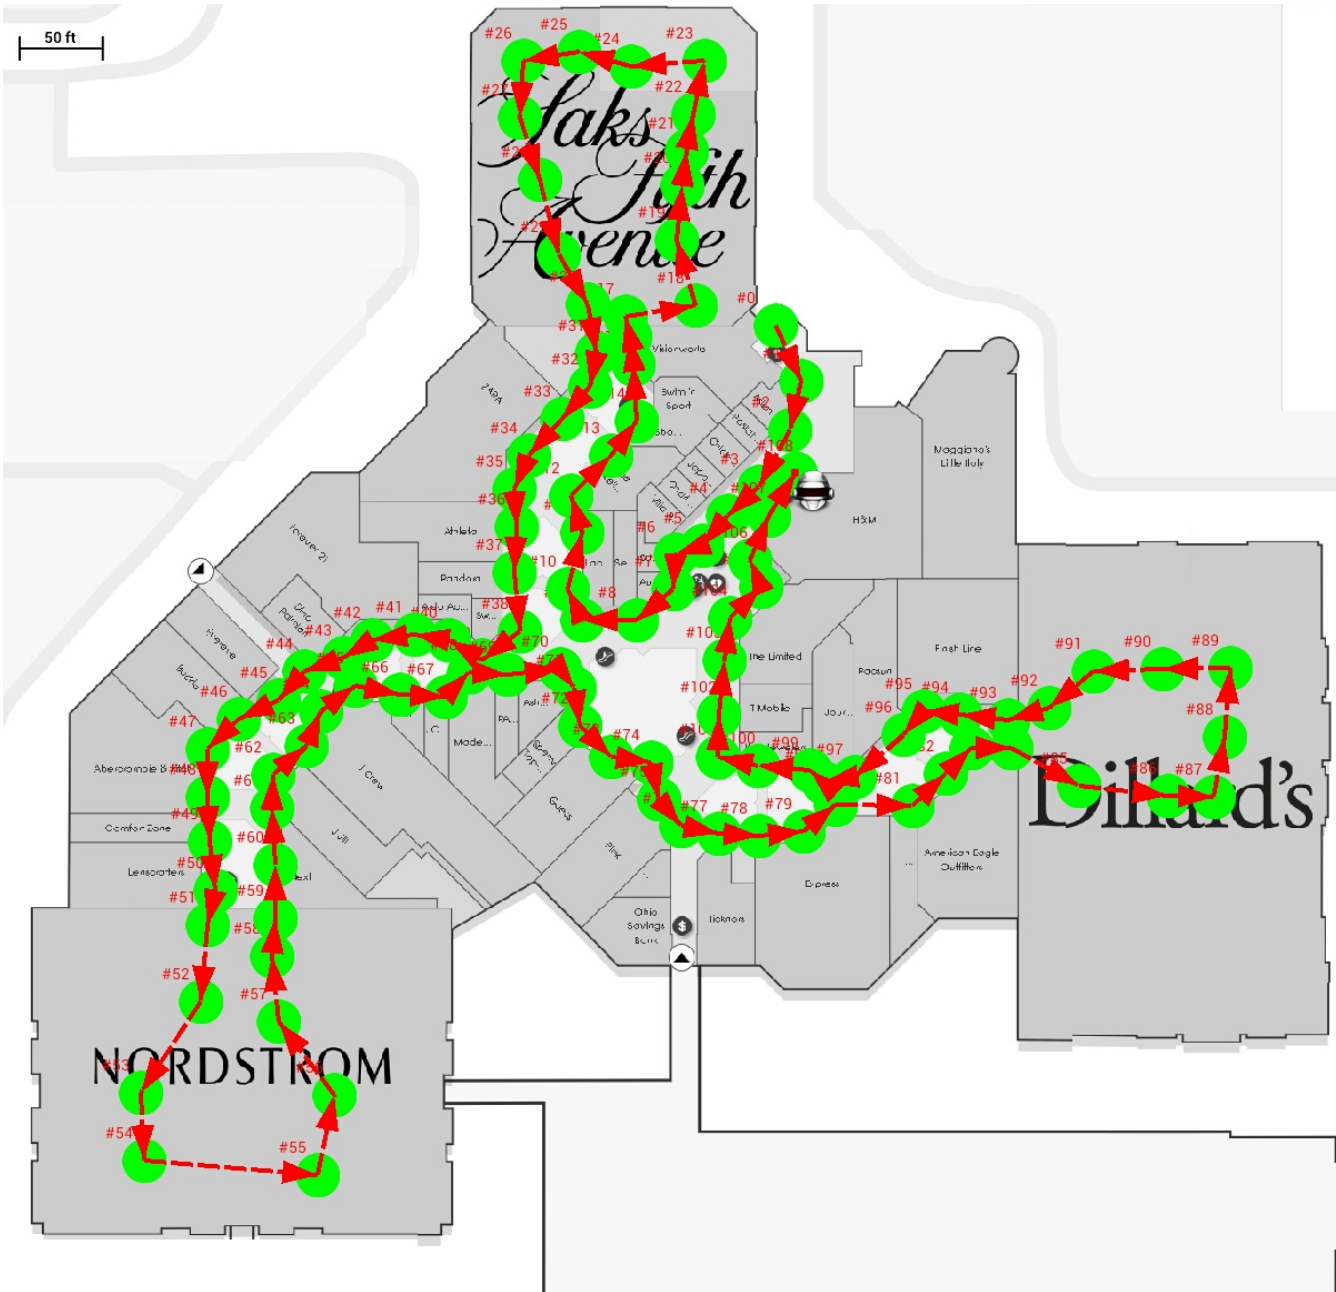

The following table summarizes the 145 detected Wi-Fi networks on Beachwood_L2
